

PULSE INTELLIGENCE LABS

THE HUMAN PERFORMANCE COMPANY

PulseCheck is our flagship product, a mental-performance and skills-training platform for college athletics.

CEO · Tremaine Grant · tre@fitwithpulse.ai

● THE PROBLEM

Pressure gets seen **too late.**

Athlete pressure rises before any support system responds.

CRISIS RISK

4x

more likely to face a mental health crisis.

COMPETITION ANXIETY

60%

of athletes experience anxiety leading up to competition.

COACH VISIBILITY

10%

reach out to a coach before crisis hits.

● WHY NOW

AS OF NOVEMBER 2025, NCAA REQUIRES 4 MENTAL HEALTH COMPETENCIES.

● 2022

NCAA Constitution requires mental health access for every member school.

● Aug 2024

Best Practices became legislatively effective across all divisions.

● Nov 2025

First Division I attestation deadline. **Compliance must be reported to the NCAA by November of every year.**

THE 4 REQUIRED COMPETENCIES

Healthy environment

Screening for distress

Action plans

Care from licensed providers

Pulse Check delivers all four.

● THE SOLUTION

Train the mind before the moment.

Daily mental-performance training becomes an early signal—and a direct path to human care.

TRAIN

- 200+ Skills to Train
- Emotional Regulation Skills
- Cognitive-behavioral Skills

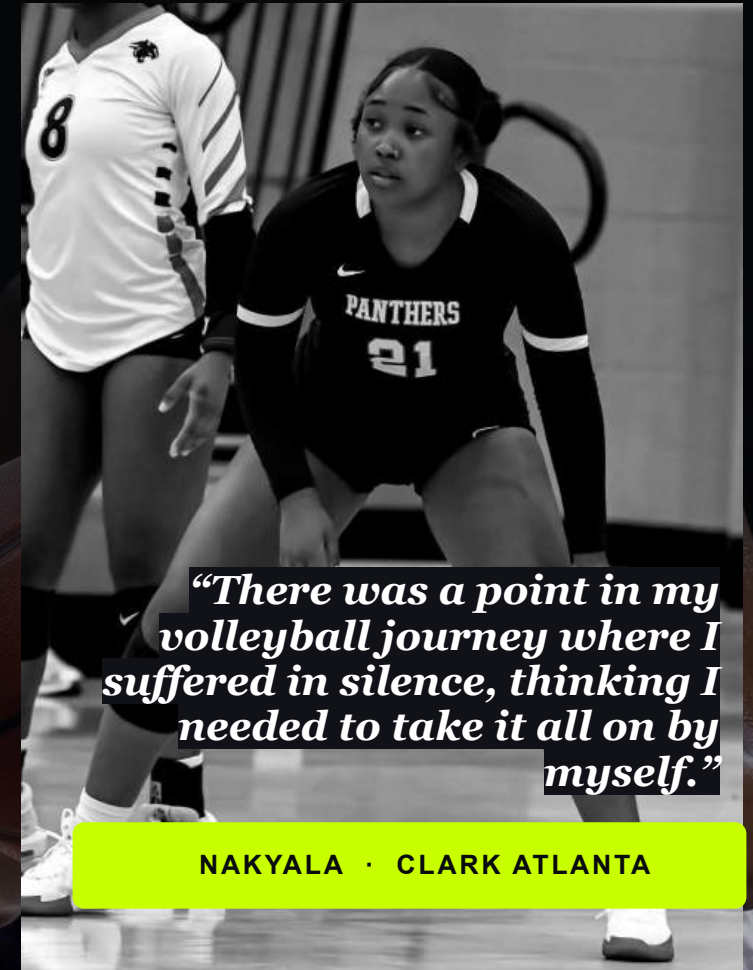

DETECT

- Nora AI chat
- Wearable signals
- Early mental crisis detection

CONNECT

- Licensed clinician handoff
- AI clinical category/labeling
- Store HIPAA-Compliant data

PERFORMANCE FIRST. CARE BEFORE CRISIS.

“There was a point in my volleyball journey where I suffered in silence, thinking I needed to take it all on by myself.”
